Dear Bob:

Here is another TAPE with ART programs. They are written & Loaded in Blue RAM 3K or Less but will Run in BB & AB. B-11 & B-12 were written to Run in BB & AB & B-14 will also with minor changes. There is a short letter on the TAPE.

Do you have prog. TAPES for sale? I'd Like to purchase some that would Run on the Blue RAM.

Best Regards

Stan
